5	13 May 2018	Philippines - Updates on Bulusan Volcano http://adinet.ahacentre.org/reports/view/1154
6	13 May 2018	Philippines, Updates on Kanlaon Volcano http://adinet.ahacentre.org/reports/view/1153

Regional Summary (Week 19)

- There have been reports of increasing seismic activity across the past few weeks. You can keep posted on the [latest report here](#) provided by Smithsonian Institute in collaboration with USGS.
- 10 earthquakes of magnitude 5.0 and above were reported between 7 May and 13 May 2018 within ASEAN Region. None of the reported earthquakes have triggered tsunami warnings.
- [PVMBG \(Indonesia's Geological Agency\)](#) had released several updates pertaining to volcanic activity within the country (correct as at 14 May 2018).
- [PHIVOLCS \(Philippine Institute of Volcanology and Seismology\)](#) has been keeping track of the recent volcanic activity.
- [ASEAN Specialised Meteorological Centre \(ASMC\)](#) maintains Alert Level 1 on hotspots in the region. The region continued to experience wet weather. In the next few days, prevailing winds in the northern ASEAN region will blow from the south or southwest, while winds in the southern ASEAN region will blow from the southeast or south.
- Detailed review and updates on regional weather conditions by ASMC for April and May are available [here](#).
- All disasters reported were within the capacity of respective ASEAN Member States.

REGIONAL TALLY

Affected population: **444,580***
Affected families: **407***

*AHA Centre's estimation based on total number of deaths, injuries and IDPs reported by National Disaster Management Offices (NDMOs) of each ASEAN Member State and other verified sources.

DISCLAIMER

The AHA Centre was established in November 2011 by the Association of South East Asian National (ASEAN) and ASEAN member states to facilitate cooperation and coordination among the Member States and with relevant United Nations and international organisations in disaster management and humanitarian assistance.

This update consists of significant natural disaster events that occur in ASEAN Member States, including Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia,

Myanmar, Philippines, Singapore, Thailand and Viet Nam. The disasters recorded include Drought, Flood, Earthquake, Tsunami, Volcano, Wind, Landslide and Storm.

The use of boundaries, geographic names, related information and potential considerations for response are for reference, not warranted to be error free or implying official endorsement from ASEAN Member States.
