

S/N	Date	Country, Disaster Log and Key Updates
1	5 Aug, 19 a& 23 Aug 2018 (update)	Indonesia, M 7.0 Lombok Earthquake (update of response and major earthquakes) http://adinet.ahacentre.org/reports/view/1249
2	21 Aug 2018	Myanmar, Flooding in Taunggoo District http://adinet.ahacentre.org/reports/view/1282
3	23 Aug 2018	Indonesia, Drought in Demak Regency http://adinet.ahacentre.org/reports/view/1284
4	23 Aug 2018	Indonesia, Fire in West Kalimantan http://adinet.ahacentre.org/reports/view/1285
5	24 Aug 2018	Myanmar, Flood in Taninthayi Region http://adinet.ahacentre.org/reports/view/1283
6	25 Aug 2018	Philippines, Southwest Monsoon enhanced by TS "Karding" and TD "Luis" http://adinet.ahacentre.org/reports/view/1279
7	26 Aug 2018	Myanmar, Landslide due to heavy rains http://adinet.ahacentre.org/reports/view/1281
8	26 Aug 2018	Myanmar, Flooding in Homalin http://adinet.ahacentre.org/reports/view/1280

Regional Summary of Week 34 and Outlook for Week 35

- 1) In Week 33, the AHA Centre observed drought and forest fire reports in southern part of ASEAN region, which is in stark contrast to flooding in the northern part of ASEAN.
- 2) Drought events have been reported in several locations of Borneo and Java as the hot and dry weather persists. Water management and distribution remains a priority as authorities strive to ensure that these needs are met.
- 3) **BMKG** is monitoring the emergence of the hotspots throughout this dry season through to the end of September. They are working constantly to coordinate with relevant authorities and the wider community to continually improve preparedness and awareness of the potential of land and forest fires, the dangers of air pollution and smoke, the potential for land drought and shortages clean water.
- 4) TS "Karding" and TD "Luis" enhanced rainfall in the northern part of Philippines with declaration of calamity being made for 1 province and 6 municipalities ([NDRRMC](#), [DSWD](#)).
- 5) hile, there were no damaging earthquakes recorded in the Philippines ([PHIVOLCS](#)).
- 6) ASEAN Specialised Meteorological Centre ([ASMC](#)) activated Alert Level 2 for southern ASEAN region on 13 Aug. Regional haze updates are available [here](#).
- 7) All disasters occurred in Week 34 were still within the capacity of each Member State.

REGIONAL TALLY

Affected people: **5,261,699*** # Affected families: **729,861*** # Displaced people: **482,019***

*AHA Centre's estimation based on total number of deaths, injuries and IDPs reported by National Disaster Management Offices (NDMOs) of each ASEAN Member State and other verified sources.

DISCLAIMER

The AHA Centre was established in November 2011 by the Association of Southeast Asian Nations (ASEAN) Member States to facilitate cooperation and coordination among Member States, relevant agencies of the United Nations and international organisations in disaster management and humanitarian assistance.

This update consists of significant natural disaster events that occur in ASEAN Member States, including Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia,

Myanmar, Philippines, Singapore, Thailand and Viet Nam. The disasters recorded include Drought, Flood, Earthquake, Tsunami, Volcano, Wind, Landslide and Storm.

The use of boundaries, geographic names, related information and potential considerations for response are for reference, not warranted to be error free or implying official endorsement from ASEAN Member States.

AHA Centre - Disaster Monitoring & Response System (DMRS); Pacific Disaster Center (PDC Global); ASEAN Specialised Meteorological Centres (ASMC); Cambodia: MWRM; Indonesia: BNPB, BPBDs of affected municipalities, BMKG, BPS, PVMBG-ESDM; Lao PDR: DSW; Philippines: NDRRMC, DSWD, PAGASA, PHIVOLCS; Thailand: DDP, TMD; Viet Nam: CCNDPC / VDMA, NCHMF
Various news agencies

- A total of 9 aftershocks were felt in Lombok Island, West Nusa Tenggara (NTB) Province, Indonesia, since 19 Aug 2018. Regencies in Lombok and Mataram were exposed to intensities ranging from MMI scale of II to IV. The AHA Centre also monitored
 - M 5.3 earthquake in Papua on 26 Aug;
 - M 4.6 earthquake in Tenggara Bengkulu Utara on 26 Aug;
 - M 4.7 earthquake in Central Sulawesi on 25 Aug;
 - M 5.5 earthquake in Barat Lampung on 23 Aug;
 - M 4.3 in Pangandaran on 23 Aug ([BMKG](#)).
- No casualties and damages reported due to the earthquake source depth.

- Meanwhile, there were no damaging earthquakes recorded in the Philippines ([PHIVOLCS](#)). AHA Centre also monitored:
 - M 5.0 earthquake in Calayan on 21 Aug;
 - M 4.1 earthquake in Baganga on 22 Aug;
 - M 4.0 earthquake in Guiuan on 22 Aug;
 - M 4.2 earthquake in Jose Abad Santos on 22 Aug;
 - M 5.1 earthquake in Sarangani on 23 Aug;
 - M 5.2 earthquake in Guiuan on 24 Aug;
 - M 4.5 earthquake in Baras on 25 Aug;
 - M 4.0 earthquake in Sarangani on 25 Aug

- A total of 232 earthquakes were recorded between 20 Aug and 26 Aug UTC+7 across the Pacific "Ring of Fire" and its adjacent tectonic plates. Of these recorded earthquakes, 37 (15.9%) were recorded to be M 5.0 and above. 25 (67.6%) of these major earthquakes ($\geq M 5.0$) occurred between 20 Aug and 22 Aug within a span of 48 hours.
- Nearly a third of the total 232 recorded earthquakes (68) occurred between 25 Aug and 26 Aug.
- Of the 232 earthquakes, 32 (13.8%) were reported within ASEAN region. Of the 32 recorded in the region, 11 (34.4%) were reported to be M 5.0 and above
- The AHA Centre also monitored the increased activities of Mount Anak Krakatau in Sunda Strait, Indonesia which had a recorded of 76 earthquake and continuous tremor events ([PVMGB](#)). There is no change in alert level of Indonesian volcanoes. In the Philippines, Mount Mayon and Kanlaon remain at Alert Level 2.
