4	26 Jan 2019	Indonesia, Flooding in Gorontalo http://adinet.ahacentre.org/reports/view/1404

Regional Summary (Week 4)

1. Flooding affected the south-eastern portion of the region, displacing thousands in Indonesia, Malaysia, and the Philippines. Seismic activities were also detected in the region; most notably in the West Sumba Regency, East Nusa Tenggara in Indonesia, being the most active this week, recording seven (7) tremors of at least M5.0.
2. There was a deadly flooding and landslide in South Sulawesi, Indonesia which started on 22 Jan 2019 (more information on the next page).
3. The widespread flooding on 26 Jan 2019 in the eastern portion of the region were attributed, by respective meteorological agencies in the affected member states, to the prevailing Northeast Monsoon.
4. A total of 13 earthquakes of M5.0 and above were reported this week in Indonesia and the Philippines ([BMKG](#) and [PHIVOLCS](#)). The strongest recorded this week is a M6.7 earthquake which followed a M6.2 earthquake in West Sumba Regency, East Nusa Tenggara, Indonesia.
5. ASEAN Specialised Meteorological Centre ([ASMC](#)) Weather Outlook expects the north-easterly winds in the northern ASEAN region to gradually weaken in the next few days, dry weather to persist over most parts of the Mekong sub-region, and the continuous blowing of northwest and northeast winds in the southern ASEAN region. Scattered rain showers over most parts of the region is also expected.
6. All reported disasters were within the coping capacity of respective member states.

REGIONAL TALLY

Affected population: **25,393*** # Affected families: **5,381*** # Displaced: **17,589***

*AHA Centre's estimation based on total number of deaths, injuries, affected population, and IDPs reported/confirmed by National Disaster Management Offices (NDMOs) of each ASEAN Member State and other verified sources.

FLOODING AND LANDSLIDE IN INDONESIA

22 Jan 2019 | South Sulawesi

EFFECTS

CASUALTIES

To date, a total of 188 villages were affected in 71 sub-districts, spread across 13 districts/cities in South Sulawesi. Emergency response, including Search & Rescue, being led by the BPBD and supported by BNPB is still ongoing. Although the flooding has subsided, residents still opt to stay in IDP camps due to trauma.

* Estimated based on the combined reports on effects and displacement
