

S/N	Date	Country, Disaster Log and Key Updates
1	18 Feb 2019	Viet Nam, Storm in Northeastern Viet Nam http://adinet.ahacentre.org/reports/view/1410
2	24 Feb 2019	Indonesia, Flooding in Jayapura City http://adinet.ahacentre.org/reports/view/1409

Regional Summary (Week 8)

1. There were isolated rainshowers in the Mekong sub-region, but in general, the area still remains to be dry with the Transboundary Smoke Haze Alert Level 3 still in effect. Meanwhile, the southern ASEAN region remains to be wet in general. For geophysical hazards, the region is quite active with recorded ten (10) earthquakes of magnitude 5.0 and above.
2. There was a hailstorm in Northeastern Viet Nam that resulted to massive damages, and a flooding and rain-induced landslide incident in Papua Province in Indonesia.
3. Widespread smoke haze from persistent hotspots continued to envelop many parts of the Mekong sub-region. Dense smoke haze was observed in northern and central Thailand as well as northern Lao PDR. Some of the smoke haze from northern Thailand was also blown toward northern Lao PDR ([ASMC](#)).
4. For earthquakes of magnitude 5.0 and above, the most active area is between North Sulawesi and North Maluku in Indonesia ([BMKG](#)).
5. There is a tropical cyclone in the Western Pacific Ocean – Typhoon Wutip, which is expected to enter the Philippine Area of Responsibility on Week 9 ([PAGASA](#)).
6. ASEAN Specialised Meteorological Centre Weather Outlook expects hotspot activities and hazy conditions in the Mekong sub-region to persist. Meanwhile, the southern ASEAN region is still expected to experience scattered rainshowers in many areas.
7. The reported disasters were within the coping capacity of the respective member states.

REGIONAL TALLY

Affected population: **24,625*** # Affected families: **4,925*** # Displaced: **N/A**

*AHA Centre's estimation based on total number of deaths, injuries, affected population, and IDPs reported/confirmed by National Disaster Management Offices (NDMOs) of each ASEAN Member State and other verified sources.

DISCLAIMER

The AHA Centre was established in November 2011 by the Association of Southeast Asian Nations (ASEAN) Member States to facilitate cooperation and coordination among Member States, relevant agencies of the United Nations and international organisations in disaster management and humanitarian assistance.

This update consists of significant natural disaster events that occur in ASEAN Member States, including Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia,

Myanmar, Philippines, Singapore, Thailand and Viet Nam. The disasters recorded include Drought, Flood, Earthquake, Tsunami, Volcano, Wind, Landslide and Storm.

The use of boundaries, geographic names, related information and potential considerations for response are for reference, not warranted to be error free or implying official endorsement from ASEAN Member States.
