FLOODING IN SOUTHERN REGION THAILAND FLASH UPDATE #1

ONE ASEAN ONE RESPONSE

- **OVERVIEW:** Intense high pressure from China has spread to the upper regions of Thailand and the South China Sea. The northeast monsoon that prevails over the Gulf of Thailand and the southern region has strengthened causing heavy to very heavy rains in eight (8) provinces of Thailand (Phetchaburi, Prachuap Khiri Khan, Chumphon, Surat Thani, Nakhon Si Thammarat, Krabi, Phatthalung, and Songkhla) from 23 Nov – 1 Dec ([DDPM](#)).

- **IMPACTS:** [DDPM](#) reported that **21,109 households (estimated 105,545 persons) have been affected** in eight (8) provinces. **No injuries or deaths have been reported.** As of 1 Dec, flooding reportedly persists in four (4) provinces:

1. Chumphon – 3 districts, 19 sub-districts, 84 villages; 1,900 households (9,500 persons)
2. Surat Thani – 7 districts, 36 sub-districts, 201 villages; 9,002 households (45,010 persons)
3. Nakhon Si Thammarat – 10 districts, 39 sub-districts, 143 villages; 3,241 households (16,205 persons)
4. Songkhla – 3 districts, 6 sub-districts, 8 villages; 118 households (590 persons)

- **RESPONSE:**

1. [DDPM](#) has urged and expedited regional offices to provide assistance according to the regulations of the Ministry of Finance and called for the coordination of the Disaster Prevention and Mitigation Center and the Military Unit as well as volunteers and related agencies to provide relief assistance to the people in the area experiencing floods.
 2. The Thai Meteorological Department ([TMD](#)) has released forecasts of heavy to very heavy rains and strong winds in the southern region and Gulf of Thailand.
 3. Alerts for flash floods have been released for 14 provinces (Chumphon, Surat Thani, Nakhon Si Thammarat, Phatthalung, Songkhla, Pattani, Yala, Narathiwat, Ranong, Phang Nga, Phuket, Krabi, Trang, and Satun) and alerts for strong winds in six (6) provinces (Chumphon, Surat Thani, Nakhon Si Thammarat, Songkhla, Pattani, and Narathiwat).
- The AHA Centre will continue to monitor for further developments and issue necessary updates.

FLOODING AND LANDSLIDES IN 5 PROVINCES VIET NAM FLASH UPDATE #1

ONE ASEAN ONE RESPONSE

- **OVERVIEW:** From 26-30 Nov, the provinces of Quang Nam, Quang Ngai, Binh Dinh, Phu Yen, and Gia Lai have experienced heavy to very heavy rains measuring to at most 800 mm causing large-scale flooding. Overflowing of rivers were also reported by the Viet Nam Disaster Management Authority ([VNDMA](#)) at Kon River at Thanh Hoa station and Ba River at Ayun Pa station.
- **IMPACTS:** [VNDMA](#) has reported the following: **2 deaths, 20,967 households (104,835 persons) affected, 2,880 displaced, and 20,967 houses damaged.**
- **RESPONSE:**
 1. The Provincial Committees of Disaster Prevention and Control continue to: monitor the situation, consolidate the information from concerned agencies, and disseminate information as a proactive measure to prevent and reduce damages; assess flooded areas; ensure supply sufficiency; implement response plans; deploy guard forces; strengthen communication; and assist the victims of the disasters.
 2. The Ministry of Natural Resource and Environment is closely monitoring the flooding and landslide situation so the relevant agencies and people are able to carry out countermeasures.
 3. The Ministry of Trade and Industry and The Ministry of Agriculture and Rural Development have directed the safety operations of hydropower reservoirs and dams to ensure the safety of the people in its proximity as well as for the works for its construction and repair and the deployment of protection plans.
 4. The Ministry of Transport shall direct the control and provide guidance of traffic in the flooded areas and remedy situations to ensure restoration of smooth traffic.
 5. The National Committee for Natural Disaster Response and Search and Rescue, the Ministry of National Defense, and the Ministry of Public Security shall direct the deployment of forces and means of emergency response at flooded areas, landslide risk as well as conduct support, evacuation, relocation of affected population, search and rescue, and response and overcoming the consequences of floods.
 6. News and media agencies have increased the timeliness of their reports with regards to the disasters as well as the issuing of early warning information.
 7. The Standing Office of the National Steering Committee for Natural Disaster Prevention and Control is closely monitoring reports and developments and advises the Steering Committee on the proper implementation of response measures.
- The AHA Centre will continue to monitor for further developments and issue necessary updates.
